# NETFIRA COMMERCE

Ostendo® by Development-X Limited

Netfira is now integrated with Ostendo

Netfira is a breakthrough business-to-business supply chain solution that streamlines the buying and selling process. It facilitates real-time, electronic transactions between trading partners. Netfira eliminates manual data entry and integrates with trading partners' ERP/accounting systems and it provides powerful, real-time information for buyers on inventory levels and pricing within the supply chain.

Increase your business performance and cut costs by using Netfira and Ostendo

Across industries, companies of all sizes are embracing Netfira to:

- Improve productivity by transforming the way Sellers and Buyers communicate and transact

- Integrate and streamline inventory systems, accounting and order processing processes

- Deliver peer-to-peer transactions with security and reliability

- Significantly reduce operating costs

Netfira delivers a reliable and affordable solution

Netfira's solution redefines ecommerce by:

- Exceptional ease of installation, management, and use

- Simple inventory lookup with fully integrated and automated transactions for buyer and sellers

- Allowing buyers to connect to sellers, search inventory and place orders at no cost.

Netfira virtually eliminates phone, fax and email processes, manual data entry and the associated errors. This streamlines processes and automates integration of sales orders, invoices, and purchase orders into manufacturers, wholesalers and distributors existing systems like Ostendo, MYOB and QuickBooks.

Why Ostendo?

Ostendo operations software is the most advanced inventory, job costing, manufacturing, service and distribution solution for MYOB, QuickBooks and Sage Pastel. Ostendo is as deep as it is wide giving manufacturers and distributors superior functionality and a business advantage in these key areas:

- Inventory with multiple warehouses, locations, UOMs, serial numbers, expiry dates, barcodes, kitsets, and unlimited pricing and discount levels

- MRP and Purchasing with landed costing, multi currency and supplier catalogues

- Manufacturing and Jobbing including unlimited BOM levels, routings, phantoms, co-products, by-products, job scheduling and project tracking.

- Distribution, POS and Service - tracking quotations, sales deliveries, call tickets, warranties and service maintenance.

A Seamless Integration

Netfira works seamlessly with Ostendo and manages all of your product queries, sales orders and invoicing electronically and in real-time.
